

Subject: Discover® Network In-Store Card Acceptance Testing

Dear Discover Network Merchant,

Discover Network is in the process of conducting tests to verify that Discover Network clients' systems have the ability to accept all Discover® Network Cards. These Card transactions are valid and will result in payment of Settlement amounts to you provided that your systems and such Card transactions otherwise comply with Release 8.2 of the Program Documents.

Please let this letter serve as verification that the person presenting this letter is assisting Discover Network and may make several purchases in your retail store location today using multiple Discover Network Cards. These Cards are valid and should be treated like any other Discover Network Card.

The goal of these tests is to verify that your systems have the ability to accept valid Discover Network Cards from various new Issuers that will support additional transactions in your retail establishments. Please handle these test transactions like any other Discover Network Card transaction. No additional action will need to be taken.

If you have any questions, concerns, or would like more information on this visit, please contact Discover Network at 1-800-347-2000, or visit DiscoverNetwork.com. A copy of this letter is available on our website and can be viewed by following the procedure outlined below.
